

ASE - TUTORIAL 5 - REPORT

MALLINENI UDAY KIRAN CHOWDARY — 28

Description

Here I designed Mashup Ionic Application. I used foresquare API to get the movie theater details and Open weather API for weather information.

Login Page:

A screenshot of a mobile application's login page. At the top is a black status bar with white icons for battery (8%), signal, and time (01:08). The main content area is white and features the text "Sign in" in a large, black, sans-serif font. Below this text are two stacked input fields. The first field has a user icon on the left and the placeholder text "Username". The second field has a lock icon on the left and the placeholder text "Password". Below the input fields is a "Login" button with a light gray background and black text. At the bottom of the screen is a black navigation bar with three white icons: a back arrow, a circle, and a square.

Registration:

A mobile application registration screen. At the top is a black status bar with white icons for signal strength, Wi-Fi, and battery, and the time 01:08. Below this is a title "REGISTER FOR AN ACCOUNT" in a stylized, outlined font. The form consists of five light gray rectangular input fields with rounded corners, each containing a placeholder label: "Name", "Email", "UserName", "Password", and "MobileNumber". Below these fields is a prominent teal button with the word "REGISTER" in white capital letters. The button has a subtle gradient and a reflection effect. At the bottom of the screen is a black navigation bar with three white icons: a triangle, a circle, and a square.
